THURSDAY, NOVEMBER 6. 1735.

No 112.

A Mail arrived Yesterday from France, and another from Flanders.

Naples, October 18.

THE Government having received some Intimation of a Conspiracy form'd against the Person of his Neapolitan and Sicilian Majesty, by one Count Leoni of Soriento, one Mancini, an Inhabitant of this City, and two other private Men, they were all four apprehended and committed

to the Castle of Baja, which is about 10 Miles Distance hence, but in the same Province (*viz.* Terra di Lavoro) which this City stands in. There they are confin'd, each Man, by himself, in a Dungeon, and both hand-cuff'd and fetter'd. 'Tis said a great many Letters were found upon them, which prove that they held a Correspondence with the King's Enemies: that they had laid a Plot to seize him at a Hunting-out, which is a Diversion he often takes near the coast, and to carry him off in a Vessel with Oars, which they had ready for the Purpose, to Trieste or some other Foreign Country. Upon Examination of the Letters, it was a Pleasure to observe, that if there were any disaffected Persons in the Kingdom, they are by the Dregs of the People, too mean to be capable of thinking rightly; but that the Nobility and other Persons of Rank retain that Attachment and Allegiance to the King which is his Due. Nevertheless, as 'tis probable these four Villains may know something more than can be pick'd out of their Letters, it has been resolved, unless they determine to make a voluntary Confession, to extort it out of 'em by the severest Torture. Notwithstanding all this the King continues to hunt on the same Country. The Prince della Riccia driving himself in his Calash some Days ago, through the streets of this City, contrary to the late Ordinances, the Government laid him under an Injunction, either to surrender himself Prisoner for three Months, or to give up his Calash and Horses; but he chose to do the latter.

Rome, October 22. The Cardinals and such of the Roman Nobility as are in the Interest of the Court of France, as well as the French Noblemen that are in Rome, are all very much disgusted at the Conduct of the Primate of Poland, for having quitted their Party, and gone off to King Augustus. Among others the late Monti, Brother to the Marquis of that Name, who has perform'd the Functions of Ambassador of France at the Court of Poland, is so scandalized at it, that he could not help saying, 'That the said Primate is not a Man of Honour, or that at least he is grown Dotard.' All the Merchants of Italy, France, and the Ottoman Porte, are rejoiced at News from Constantinople, that the Ottoman Porte has made a Proposal to the French Ambassador there, for settling a Treaty of Commerce with the new King of the two Sicilies, and that the Kings of France and Spain have actually consented to it, which Means the said Merchants hope to enjoy a Trade in all the Ports of the Levant. The News of the Discovery of a Conspiracy for kidnapping the late Don Carlos, is the principal Subject of Conversation in this City; nevertheless some of the Circumstances that are given out of that Plot, seem very suspicious, and 'tis scarce credible that the four Persons apprehended for it, acted by any Orders from Superiors. The Pope makes Instances to the King of Portugal to send a new Nuncio at his Court, for the better settling of Measures for accommodating the remaining Disputes between his Portuguese Majesty and Holy See.

London, Oct. 22. 'Tis strongly reported, that the Preliminary Articles for a Peace between the Powers at War have been agreed on at Vienna. We long for Confirmation of this important News, in hopes that we shall see this State eased of the Contributions which it is to furnish for the Maintenance of Foreign Wars. An Edict was publish'd here a few Days ago, for laying a general Poll-Tax upon all the Inhabitants of this State, according to which the Nobility both Sexes are to pay 8 Livres apiece, the Mer-

chants 7 Livres, the Substantial Burghers 6 Livres, Artificers 3 Livres, and Labourers, Servants, &c. a Livre.

Ferrara, Oct. 26. All the Talk for several Days past has been about Peace, which we are assured is very near at Hand.

Venice, Oct. 29. Letters of the 25th ult. from Constantinople say, that the Ottoman Porte has insinuated to several of the Foreign Ministers, that they are inclin'd to conclude a Treaty of Commerce with the Kingdoms of Naples and Sicily. They talk but little at the Porte about Persia, which makes it suspected that their Affairs there are not mended. All they say is, that Thamas Kouli-Kan persists in his Design not to make a Peace, unless all the Places be restored to him which the Turks have conquer'd from the Persians. 'Tis given out here, that the Senate has received an Express from their Ambassador at Vienna, with Advice that the Peace between the Emperor and the Allies, is as good as concluded.

Vienna, Oct. 29. According to all Appearances, a Peace is near at Hand, of which we shall be fully informed after the Return of the Person who has been here for a while incognito, and who we are assured is shortly expected to put the last Hand to the Preliminaries. 'Tis actually given out already, that Count Sinzendorf, Great Chancellor, is to repair to the Congress in Quality of the Emperor's First Plenipotentiary.

Ratisbon, Nov. 3. The Troops that were incamped at Ingolstadt are gone into Winter Quarters, and the Elector of Bavaria is return'd with the whole Court to Munich.

Mantua, Oct. 26. The Joy of our Inhabitants at the free Admittance of fresh Provisions is inexpressible, tho' 'tis not to be doubted that the Duke de Montemar, before he permitted it, was very sure of the Truth of the Report, that a Suspension of Arms was agreed on between the Emperor and the King of France and his Allies.

From the Camp at St. Bonifacio, Oct. 23. The Marshal de Noailles has just received an Express from Germany, which, 'tis said, has brought him the News, that a Suspension of Arms, and the Preliminaries of an Accommodation between the Emperor and the three Allies, have been agreed on at Vienna; and that which makes the Report more probable, is, that Provisions are now suffered to be carried into Mantua without the least Opposition.

Leighorn, Oct. 22. The Lady of the Right Hon. the Lord Walpole is just arrived here from England.

Parma, Oct. 25. Great Preparations are making here for the Reception of the King of the two Sicilies, who is expected here with the whole Court from Naples.

Vienna, Oct. 29. Sir Everard Fawcner set out from hence two Days ago, in order to proceed thro' Hungary to Constantinople, whither he goes with the Character of Ambassador from the King of Great Britain. The Person who was here incognito, and treated of the Suspension of Arms, and the Preliminaries of an Accommodation between the Emperor and the King of France and his Allies, was the Count de St. John, of the Family of Villars Brancas, who is now returned to Paris, but expected back again forthwith, with the Preliminaries signed; after which a Place will be pitched on for a Congress, to which Count Sinzendorf is to go with the same Character as he had from the Emperor at the Congress of Soissons.

Venice, Oct. 29. Thamas Kouli-Kan, the Persian General, who continues to triumph over the Turks, having made himself Master of all Georgia, is marched with his Troops to besiege Erivan, after having laid all the neighbouring Country waste, to deprive the Turks Army of any Subsistence, in case they should advance to molest him. This is a great Town in Armenia, fortified after the Eastern Manner, is defended by a good Fort, and by a Castle at some Distance from the Town; and the Turks Garison in it is furnished with Artillery, Ammunition, and Provisions, and all other Necessaries for a long Defence.

Genoa, Oct. 27. The Government has, at last, after great Debates, deputed Signior Lorenzo Imperiale, and Paul Baptist Rivarola, to go over to Corfica, in Quality of their Commissioners, in the room of Signior Pinelli, who, it seems, is disvested of all manner

of Power, after great Debates about it in Council, which grew so hot, that they were obliged to throw open the Doors of the Hall, to let in the Guards for preventing Mischief. Besides other Things laid to the Charge of Pinelli, he is accused of having been the sole Cause of the late Troubles in that Island, and of having always concealed the true Situation of the Affairs of that Country from the Republick. 'Tis hoped however, that the new Commissioners will behave so as to reconcile the Islanders to their Obedience.

Paris, Nov. 12. A Suspension of Arms between the Powers at War being agreed upon, Orders are sent to the Generals of the Forces in Germany and Italy, to cease all Acts of Hostility; and the Actions of the India Company are now risen to 1815. There are pretended Copies of the Preliminary Articles handed about (*say the Author of the Almanac*) but they are so absurd that we shall not mention them. — The Duke of Chartres is perfectly well recovered. — The Marchioness of Chateauneud was brought to Bed on the 8th Instant of a Daughter.

Advertisement concerning this Book.

This Masterpiece of religious Policy was published, many Years since, in Latin, French, and Dutch: Mr. John Schipper, a Bookseller at Amsterdam, bought one of them at Auction among other Books, and afterwards reprinted it. The Jesuits being informed that he had purchased this Book, demanded back from him; but he had then sent it to Holland. One of the Society, who lived at Amsterdam, hearing it said, after, to a Catholic Bookseller, by Name Van Eyck, that Schipper was printing a Book which concerned the Jesuits, replied, that if it was only *The Rules of the Society*, he would not be under any Concern; but desired he would inform himself what it was. Being told by the Bookseller, that it was *The Secret Instructions of the Society*, the good Father, being grieved at his Shoulders, and knitting his Brow, said, that he saw no other Remedy but denying that this Piece came from the Society. The Reverend Fathers however thought it more advisable to purchase the whole Edition, which they did after did, some few Copies excepted; from one of these it was afterwards reprinted, with this Account prefixed; which there said to be taken from two Roman Catholics, M. and CREDIT.
